ACTIVE ADVENTURE

Our Active Adventure programme is a physical programme of adventure activities. It has been designed specifically to promote healthy exercise, while also introducing young people to the benefits of co-ordination and teamwork.

TRANSITION YEAR

Personal Development and Adventure - A basic truth of high-quality outdoor education is that it paves the way for 'learning outcomes' that simply cannot be achieved within the confines of the classroom.

NEW SYLLABUS GEOGRAPHY & FIELD STUDIES

The world around us remains a source of fascination, even in these fast-changing times. Our experience is that young people are extremely curious about their surroundings, and our Westport Centre lies at the heart of a region of great natural beauty and significance.

NEW FRENCH INTERACTION PROGRAMME

Please call 098 35844 for more information on our new French Interaction Programme.

"Everyone at Horizon was very helpful, friendly and every effort was made to make the party feel welcome. The 24 hour supervision is just wonderful and would encourage teachers to take a group to this centre. Pre-planned activities for evenings ensure students are kept busy and entertained. Overall we were very impressed with how pleasant and professional the instructors were, you were well prepared for us and it showed. Kids had a great time and so did we!!"

Tony McHugh, TY Co-Ordinator, Beech Hill College, Monaghan

“The Horizon experience for both students and staff is fantastic with high quality activity supervision and instruction at all times. I highly recommend Horizon to any other school groups with the very comfortable accommodation arrangements making it a tremendous experience for all.”

Paul Marron, St Paul's School, Monasterevin, Co Kildare

COURSE OPTION 1:

ACTIVE ADVENTURE

Our Active Adventure programme is a physical programme of adventure activities. It has been designed specifically to promote healthy exercise, while also introducing young people to the benefits of co-ordination and teamwork.

We offer a balanced course content to you in advance that we feel will suit the needs of your group. We will then welcome your comments and recommendations on how it might be tweaked to be an exact fit for you. We undertake to balance fun and adventure with solid learning outcomes.

Through this fun-filled activity, our instructors subtly draw out the 'best' in each and every pupil – the guests are encouraged to try their hand at challenges they might never before have dreamed of tackling.

Their self-confidence soars. Every participant walks away with a new-found self-belief, and a real pride in what they have achieved. Thus, they become more open to new learning experiences, and develop the resources to approach seemingly impossible challenges with a new vigour.

Our timetable permits six sessions of activities per day – ranging from team-building challenges to timeless target pursuits, and throwing in a few adrenalin-pumping adventures along the way.

COURSE OPTION 3:

NEW SYLLABUS GEOGRAPHY BIOLOGY AND FIELD STUDIES

The world around us remains a source of fascination, even in these fast-changing times. Our experience is that young people are extremely curious about their surroundings, and our Westport Centre lies at the heart of a region of great natural beauty and significance.

STUDY 1:

New Syllabus (07) Leaving Certificate GEOGRAPHY (Ord & High) Fieldwork

Designed by Geography Professionals this new course is designed to meet the needs of both students and teachers in delivering a section of the new Geography syllabus. The Geographical Investigation is the key area of study in Core Unit 3 and is compulsory for all students*. (Geography, Leaving Certificate, Guidelines for Teachers. NCCA 2004)

Both classroom instruction and actual fieldwork will be covered. All data required will be collected and analyzed to facilitate the writing up of the Reporting Booklet. Your students will benefit if they have studied and reviewed the relevant sections in their Core Unit 1 on erosion and rivers prior to undertaking our fieldwork module.

TOPIC: *Geomorphic processes of erosion in a fluvial environment.* To cover this topic fully our river study will include:

INTRO: Setting of aims or hypotheses

PLANNING: Selecting methods of gathering and identifying the information required

GATHERING of INFORMATION:

- Drawing cross sections
- Constructing Valley Profiles
- Measuring Velocity
- Calculating Discharge
- Determining Load size and shape over distance
- Field sketches
- Results, Conclusions and Evaluations

Finally after all the hard work on the site locations, your students will return to the classroom to establish their results.

What will you have achieved?

You will have the full information to enable your students to write up their fieldwork in the Reporting Booklet. Importantly, guidance will be given towards the "writing up" giving due consideration to the marking scheme and the weighting of the marks to the different sections.

STUDY 2:

BIOLOGY Leaving Cert (Ord & High)

Through our Leaving Certificate programmes your students can:

- Collect ecological data through sampling.
- Develop analytical skills through graphical and statistical techniques.
- Encounter real plants and animals in a variety of habitats.
- Make links with other areas of biology.
- Boost their understanding of ecology and its everyday application.

All the Leaving Certificate ecological experiments required can be included in a field visit to one or more habitats over the course of a visit to our Eco-Study Centre.

Study 3: Environmental Field Studies

We introduce the students to nature's complexity and diversity under five broad themes: • Coastal • River • Settlement Studies • Flora & Fauna • Ecosystem Management • Mountain Studies

We generally deliver these as full-day modules, but can also deliver half-day modules to cater for the needs of your group. Our systematic - yet enjoyable - approach combines theory sessions & field trips, & students are asked to complete worksheets that open their minds to the fascinating area of collecting data. Follow-up sessions take place in our ICT Laboratory an illustrate how new technology can assist us in our understanding of nature.

Adventure & Education Centres

QUESTIONS & ANSWERS

You may still have some questions - if we don't answer them here, please contact us and we will deal with your queries.

Q: WHAT EXPERIENCE DOES HORIZON EDUCATION AND ADVENTURE ACTIVITY CENTRE HAVE?

A: As pioneers of educational activity centres in Ireland and the UK, we have many years of experience in this sector behind us. We have kept in touch with every change in Outdoor Education – and, in most instances, we have led the changes. We bring that experience to bear in everything we do – how we devise our programmes, how we roll them out, what staff we employ, how we ensure the trip is as enjoyable as possible for students and teachers.

Q: ARE YOUR PROGRAMMES UP-TO-DATE?

A: Yes. We don't wish to sound boastful, but we are at the cutting edge of educational activity trips. We note every innovation in foreign countries and implement them where we think they would apply in Ireland – and we also conjure up our own new approaches.

Q: IN BRIEF, WHAT BENEFITS WILL MY CLASS GET FROM A RESIDENTIAL TRIP TO YOUR WESTPORT CENTRE?

A: We will introduce your students to a brand new learning environment. It will be exciting, it will be challenging, and it will be fun – and these three components, when mixed together, produce an environment where your students learn quickly and enthusiastically. They will expand their horizons, gain in self-confidence and independence.

We promote teamwork and this approach can have far-reaching benefits in terms of bringing a class, and its teacher, closer together.

Q: IS YOUR CENTRE SECURE AND SAFE?

A: Yes. We offer 24-hour supervision, so you can rest assured that your students are constantly monitored. The Centre itself is a secure entity within the Westport Woods Hotel complex. Our staff are highly-trained. Upon arrival at our Centre, all schools receive a fire safety briefing, where all emergency exits and meeting areas are pointed out.

Procedures for evacuating the buildings are also rehearsed at this point. This is followed by an emergency fire drill that includes everyone – students, teachers and staff.

Q: DO WE HAVE TO ORGANISE OUR OWN INSURANCE?

A: Full Public Liability Insurance cover is included in the overall package price.

Q: HOW DOES PAYMENT WORK?

A: Once you have booked your dates for a visit to our Westport Centre, the first, non-refundable deposit will fall due within 21 days. The second deposit is due eight weeks after the first, and the third, and final, payment falls due ten weeks before you arrive.

Q: WHAT ABOUT DATES AND PRICES?

A: Please refer to the Dates & Prices Sheet inserted in this brochure. If one is not included, please call us on the number below.

Q: DO THE DREADED MIDGES SPOIL OUR ENJOYMENT OF THE OUTDOORS?

A: No. Westport is a midge-free zone, you will be glad to hear!
